Reviews

This ebook will never be effortless to get started on studying but extremely fun to read through. It is actually written in easy phrases and never difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

Octopus Publishing Group. Paperback. Book Condition: new. BRAND NEW, The Science of Protecting the Planet, Smith, Jeremy, Science at school conjures up images of bleary boffins slumped over bunsen burners. In fact it has many exciting uses in the real world. This accessible, curriculum-linked reference book introduces the reader to the fascinating world of conservation. Discover how science is used to protect endangered species, clean up after environmental disasters and much more. Difficult concepts are clearly explained in easy-to-understand language, with eye-catching photographs and clear illustrations. If you thought science was boring, think again. The Science of series take science into the field and examining how it is used in a variety of exciting professions. Along the way the reader will recognise familiar scientific ideas and experiments, but will begin to see them in an entirely new light!.
